SUMMARY

I am a motivated and ambitious high school student with a strong commitment to integrity and excellence. I am dedicated to continuous learning and seeking opportunities in technology consulting to apply my skills and make a lasting and positive impact in the real world.

EDUCATION

Turner Fenton Secondary School | Grade 11 | 95+ Grade Average Expected Graduation: 2027

- Demonstrates academic excellence while actively participating in extracurricular activities
- Balanced involvement in multiple sports teams, clubs, and leadership positions
- Earned numerous prestigious awards while maintaining a strong academic record simultaneously

WORK EXPERIENCE

Royal Bank of Canada | High School Innovation Developer June 2026 to August 2026

- Built a project for Avion Rewards that tracks campaigns internally at RBC
- This project saves \$20,000 and 96 hours per campaign
- Collaborated within a team of 3 over 8 weeks, gaining meaningful experience in team collaboration, working within a bank environment, and operating among large teams

ADAI | Independent Contractor June 2025 to Current

- Executed over 100 thorough cold calls and emails combined to prospect and pitch businesses on automation services that include prototypes of service
- Achieved 5 closed-deals across those 100 outreach touchpoints, converting cold prospects into paying clients
- Worked directly with real clients on real projects, managing the full process from outreach to delivery
- Serve dentistry practices niche with automation services built specifically around how these businesses actually operate

City of Brampton | Lifeguard and Swim Instructor February 2026 to Current

- Protect and watch patrons in the pool facility, maintain orderly operations during shifts, and prevent accidents before they happen
- Teach swimmers of all ages real life water safety skills, focusing on building both confidence and efficiency

Trident Consulting | Cloud and Software Consultant Intern June 2025 to September 2025

Trident Consulting is a top tier Canadian technology consulting startup, renowned for its elite team of cloud computing experts and some of the best tech leaders in Canada, specializing in AI, cybersecurity, and multi cloud architecture.

- Spearheaded development of a secure company web portal as primary front end developer using ReactJS, HTML, and Tailwind CSS, delivering a production ready solution within 6 weeks
- Proactively contributed to architecture and cybersecurity design, integrating AWS, Microsoft Azure, Cloudflare, and Terraform (IaC) to ensure scalability and resilience
- Authored 10+ pages of comprehensive documentation using Confluence and Jira
- Delivered a polished final demo presentation to stakeholders, showcasing strong communication and project leadership skills (Project Sicuro)

EXTRACURRICULARS AND AWARDS

Turner Fenton Secondary School

- Varsity Table Tennis Team: Won 3 ROPSSAA Golds and 2 Silvers, won Turner Fenton's first championship in over 25 years, honoured with both Most Improved Player and Most Valuable Player awards spanning 2 years

- Varsity Swim Team: Won first place in the 50m Freestyle and earned Most Improved Swimmer, displaying dedication and rapid progress in high school swimming
- Varsity Volleyball Team: Achieved a lead role on the Boys Varsity Volleyball Team, coming 2nd in the TLK Regional Jr. Boys Volleyball Tournament
- TFSS AI, Founder and President: A technical leader who oversees club directors that teach brand new concepts in AI automation including workflow automation, outreach systems, chat agents, voice lines, and other useful topics for students to get hands on with
- CultureFest, Dancing Arts: Performed as a solo performer at the school's annual CultureFest, and was also a lead dancer in a large scale cultural performance
- SOAR, Head of Development and Design: Designed and executed the establishment of SOARCUP 2026's website from scratch with custom code, including an advanced layout, theme, and styling

Volunteer Work, 100 Hours

- Trident Consulting, Case Team Support: Observed some of the most impactful client meetings, sales calls, and live recordings of real deals at a technology consulting firm. These 100 hours provided a complete view of how a firm closes a client, from first conversation to signed deal
